## **“When things get tough, the tough get going”**

It is said that when the unexpected or impossible happens, you are caught off balance. In this third decade of the millennium, we were unexpectedly hit by a pandemic wave from the east. As the nation went in lockdown, its impact was felt across all the strata of our society. But unfazed by the unexpected crisis, We Rainbowites, rose to the challenge, energizing the young minds to fight the adversity. We rapidly retooled, redesigned and delivered a significant body of knowledge to deliver seamless digital learning engaging the students, quenched their thirst of knowledge aided by smart tools and teachers restoring sanity and peace in the society.

**“ Be not afraid of growing slowly, be afraid only by standing still.”**

It is better to take many small steps repeatedly in the right direction than to make a big leap forward hurriedly, only to stumble back. I think let the options for every child to acquire skills, learn, understand, analyze, apply and create.

I welcome each one of you to Rainbow Schools where there is a convergence of latest technology, innovative pedagogy and quality education to make education a unique learning process.

The dream I conceived in 1982 has now come alive with Rainbow certified as the Cyber Smart School. All these years we have held steadfast to our vision. Our School's objective is to continue being recognized as a torch bearer of leading education methods and an institution that has students defining a future not only for them but for the world as well. We have strived and will continually strive for brighter and more secure prospects for our children. May the sapling grow into a sturdy tree and spread its branches.

I extend my gratitude towards our excellent and highly qualified team of faculty members, who have been the basic pillars of this successful organization during this difficult times. I hope and pray that all of you stay safe and healthy. This challenging time will pass but what will count is our tenacity and perseverance with which we deal with it.

As the Chairman of this institution, I anticipate the full participation and cooperation of the students and parents to make it possible for us to transform those dreams to reality. Last but not the least I express my sincere thanks for placing your trust and confidence in me to lead the Rainbow group of schools – a task I accept with deepest humility.

A lot of uncertainty is still clouding the normal functioning of our state of affairs. Hence envisioning your safety and your health, the school has been firm on protocols and in-practice measures of the time.

I know how you have had to face various obstacles and tribulations which lurked all about you to defeat your purposes in life. Let me assure you that we are all in it together. You are not alone. We have to navigate through these wild waves of panic together.

Best Wishes

# ***From the Principal's Desk***

***"Education is not the learning of facts, but the training of the mind to think."***

It is indeed a matter of pride to pen down the message of Rainbow English Sr. Sec School. My heart fills with immense pleasure as I perceive the progress being made at Rainbow in these 39 years of its journey.

I feel ecstatic to see Rainbow English School shaping up so beautifully. Rainbow strongly believes in the ideals of truthfulness, sympathy and loyalty and works in a way that these ideals may be harmoniously ingrained in each and every Rainbowite. I feel extremely delighted to share that the school has established an Atal Tinkering Lab (ATL) by the Atal Innovation Mission, NITI Aayog. Besides this, the school has added one more feather to its cap. Rainbow is now a certified Cyber Smart School.

As the Principal of the school, I truly feel honoured to be a part of this vibrant school, which offers great opportunities to the students to become confident young individuals ready for any future challenges. From the moment a student joins Rainbow, we make endeavours to instill in them a sense of belonging and the desire to excel which are essential to future success. Even in these unprecedented times of covid-19 pandemic, we made constant efforts to provide effective education to our students and kindle the young minds with a dream of better tomorrow.

"Confidence and Belief in God and Yourself will bring many achievements in life. There is no opening for failure."

The academic year 2021 had been rather a difficult one. The COVID -19 pandemic has turned the lives of people upside down. The pandemic has transformed the centuries old chalk-talk teaching model to one driven by technology. Children had to take virtual classes and they were deprived of all kinds of social interaction.

Inspite of the pandemic perturbation, we did not lose our focus. We tried to find happiness and continued our journey of exploring different ways to solve each problem. Online classes did not dampen the spirit and enthusiasm of the students. They participated in co-curricular activities, special events and webinars wholeheartedly.

As you flip through the pages of 'Vibgyor', you will see images of enriched environment provided to the students so that they become more analytical and innovative. I am really happy to see the Rainbowites adapting quickly to the challenges. I believe that this is the time to not just deal with the current crisis, but also build foundations of resilience to face such difficult events in the future.

After the DDMA's order for the reopening of schools, our school also reopened for students of 9-12 standards with all COVID -19 protocols. The school is following a "blended mode" of online and offline classes to ensure that those who are at home do not miss out on their studies. Safety of the students, teachers and the entire staff is our top most priority.

I sincerely thank and appreciate all my teachers for their commitment and high sense of responsibility in conducting the online teachings efficiently despite a lot of inconvenience and difficulties, our admin staff for all the efforts they make that keep the school functioning. I thank all the parents and well wishers for your continual support during this difficult times and collaboration in our service to this society.

Stay Happy, Stay Safe  
Hope you enjoy reading this edition of E-Newsletter!

## ***Message From Headmistress***

*"The essentiality of education in building tomorrow's leaders cannot be overlooked. A person without education is a tree without roots."*

Warm Greetings to all.

Regardless of the present scenario around us, it gives me immense delight to witness how our loving parents, teachers and students are standing strong during the test of time. None of their efforts have gone in vain.

The present trends of e-teaching and learning have enabled the educators as well as the learners to adapt various approaches in the process of learning. 'Rainbowites' are no far in this race. With the innovative and skilful practices we are able to build diversified torch-bearers digitally too. Even though our vigorous kids are now missing their physical classrooms, but this hasn't exhausted their spirits.

As rightly said, that every problem has a solution, there's always a way to fix. I too, have no doubt that a new dawn shall soon bring down the curtains of hard knocks.

Rainbow ensures the inculcation of knowledge that breeds confidence and a life time of learning. The magnificent colours of our students will definitely always shine with their sincerity and hardwork.

I hope to receive similar and continuous zealous cooperation from parents and my young learners in attaining the best of interests.

Sonia Kashyap  
Headmistress

# Message From Academic Incharge

*“Let’s paint a colourful world for each other .”*

The early years of a child is the phase where children are exposed to the outside world for the first time and to engage them and to make them learn in a comfortable atmosphere it is very important to plan a variety of activities to enhance the quality of their learning process.

In Online Classes, students get equal opportunities like offline classes to develop a sense of the world around them through inquiry, exploration, interaction, and problem solving.

The colorful world of the junior wing includes lots of activities like ..... Intellgeo Thon - A week long class Inter-Class Competitions, Colours Week, Independence Day, Dussehra, Diwali, Eid, Gurburab, Baisakhi, Mother's Day, Father's Day and Hindi Diwas celebration etc..... enjoy the mesmerizing moments.

# Message From Academic Incharge

***“A child solves a problem with guided motivation whereas with punishment he/she suffers for having a problem. Therefore problem solving skills in a student develop with solution not retribution.”***

The years of Class-III to V in a student's life play a very important role in his/her future building because in these years he/she transforms into more independent and mature learner. Also, in these years, a student climbs up from academically 'initial learning' to more of 'understanding based learning'.

During this important learning phase we at the Rainbow English Sr. Sec. School support students in learning how to communicate their ideas in a powerful way. Most importantly, in the school, we are a team of dedicated teachers and staff, committed to the welfare of the children under our care. For us, teaching is a passion and beyond the call of duty. We understand the importance of instilling good values in children and guide them forward dutifully playing our responsibility of nurturing them.

We understand the challenges faced by students, parents and teachers to cater to the academic needs caused by the continuous change in the scenario in past more than a year due to pandemic. However the importance of education remains consistent. The purpose of education in the years from class III to V is to build a solid foundation for children to build upon for the rest of their lives. Learning typically comes very easy to children during these initial years of life as their brains are growing and they learn at a rapid rate.

At last, I wish to reiterate that we always encourage our children to explore and learn using the whole school environment. It is our motto that students must understand what it means to live a healthy lifestyle and they must develop a zeal for doing the best they can.

“Bring out the best in you and never ignore upholding the dignity of people. God has sent you with certain abilities and with those abilities what you actually do is your real gratitude to the God and true meaning of life.”

***“Children are not things to be moulded but are people to be unfolded.”***

Rainbow English Sr. Sec. School has always believed in this and encouraged each child's participation in academic and extra-curricular activities. With a rich legacy of over thirty nine years, the school epitomizes vibrancy and dynamism. It aims to provide a holistic learning environment whereby the pupils develop the fine attributes of the head, heart and hand making them global citizens who are 'future ready'. Our philosophy at Rainbow English School is to keep them deeply rooted to our Indian culture and heritage at the same time keeping our pupils abreast with the latest trends and technologies in the field of education during this pandemic too.

Middle wing of Rainbow has provided a myriad blend of scholastic and co-scholastic opportunities to cater to the needs of different learners for their overall development. Our well trained faculty has provided enriching environment keeping in sync with the latest methods of Teaching-Learning process.

Our students were provided with numerous opportunities to showcase their talent and were at their creative best.

I extend my gratitude to the parents for their constant support during these tough times and looking forward for their cooperation in future too.

May our desire to achieve excellence in all spheres make us surge ahead with renewed energy each academic year !!

# House

**“The strength of the team is each individual member.  
The strength of each member is the team”.**

These wise words aptly describe the members of the RED HOUSE – NAVNIDHI HOUSE.

'Navnidhi' indicates a discovery of treasure within, an essence of education. Rainbowites elaborate it as:

N is for being Natural, the genuine side

A is for amalgamate

V is for valour, our strength.

N is for nonpareil,

I is for impeccable,

D is for dexterous

H is for harmonious

I is for intriguing, arousing the curiosity of others.

The house provides ample opportunities to the students to discover their ambiguous talent. House teachers make endeavour not only to shape students' creativity but also value individualism, experiential learning and skilful development.

The students and members of Navnidhi House have always strived for excellence with great determination, will, respect, compassion and most importantly modesty.

The House performed very well and this happened because of strong grit, hard work, profound connections and fondness between all the house members. The stupendous success of the House is the outcome of the cumulative efforts of teachers and students.

The time was tough due to pandemic, but in spite of that Navnidhi House conducted various events like Basant Panchmi, Navratri, United Nations Day, National Unity Day, World Food Day, Raksha Bandhan, Janmashtami, National Sports Day, etc.

These events gave us new experience and we all learnt new things.

We are highly indebted to our School Management and our School Principal for reposing faith in us.

# Chakshu House

**“Teamwork is the secret that makes common people achieve uncommon results”.**

Chakshu House always comes up with a visionary approach that navigates one to a portal of intuitive wisdom to broaden new horizons of accrue novel knowledge, experiential learning and skillful holistic development. The teachers of Chakshu House are committed to calibrate the students' innate talent by inducing diverse learning opportunities and interactive activities to continue in the pursuit of knowledge with uninhibited vigor.

Chakshu House had organized plethora of edifying, participative and interactive events whenever the house was on duty.

The house took the initiative to celebrate all the national and international events. As our young students stand at the threshold of greener pastures, a virtual competition was held on Van Mahotsava using Dry Leaves to promote awareness towards environment and we witnessed an overwhelming response of students.

To ignite enthusiasm of students on Teacher's Day, English Declamation Competition was held wherein students participated enthusiastically.

The students exhibited their talent of extensive anthology of artwork during Pattachitra Making and Card Making Competition on the occasion of Diwali Celebration. The teachers also adapted the admirable fluidity of Competition and enthusiastically participated in Rangoli Making Competition.

Chakshu House students put forth their prismatic talent, deterred the obstacles and participated in the activities. With their sheer hardwork and perseverance, they turned out to be the winners.

Roopa Moitra

# Navrang House

## Nobel Admirable Vigorous Reasonable Attractive Nurture Generous

This year Navrang House with the aim "Celebrate and Recognise" joined hands with other houses to cultivate a lively experience by celebrating and recognizing all the national and international events virtually.

From the beginning of the session till date various events, occasions, important issues have been highlighted with efforts of team members and our sincere and dedicated Rainbowites.

Special days such as World Health Day, World Red Vross Day, World Environment Say, Blood Donation Day, Indian Air Force Day, Gandhi Jayanti etc. were celebrated through virtual special assembly. Some religious festivals like Mahanavami, Dussehra etc. were also celebrated with great enthusiasm.

Inter House Competitions were also organised to raise self-esteem, for developing self-confidence as well as giving opportunities to take up leadership charge and build team spirits.

All these virtual activities allowed students to learn in a supportive and convenient atmosphere in these unprecedented times.

# Ambu

# House

**"I am the drop that contains ocean...  
Striving towards excellence with humility in our hearts."**

As the name suggests, Ambu House symbolizes life, purification and flexibility. Ambu House fosters a spirit of self-discipline, courteousness, confidence, responsibility and punctuality among the students.

The teachers of Ambu play a vital role in motivating the students. They use a plethora of practices and techniques to help students learn new methods to rise above challenges and believe in their ability to grow.

Ambu House prioritizes learning beyond text books to develop life skills with a positive attitude for wholesome education of our dear students. Socially useful and productive activities have been introduced by Ambu House throughout the year for enhancing the students' participation in a vast range of areas.

Our House is blazing a trail and celebrating all the International and National Days. We are also observing Birth and Death Anniversaries of renowned personalities. Our students showcased their in the Poster Making Competition on the occasion of International Tiger Day talent and made endeavours to raise awareness about tiger conservation with their spectacular paintings. With the aim to discover culinary talent among our students, a cooking contest was organized by Ambu House on the occasion of National Mango Day. All the participants took part in both the competitions enthusiastically. Our students exhibited their charismatic talent and came up with flying colours in all the activities.

We sincerely thank the School Management for providing the opportunities and constant support to students and teachers.

# Message From School Captain

*“LEADERSHIP IS NOT ABOUT A TITLE OR A DESIGNATION. IT'S ABOUT IMPACT, INFLUENCE AND INSPIRATION”*

It's every student's dream to lift their school flag one day and I was no exception. Growing up, I have always admired all the school captains and dreamt to be in their place carrying forward the duties proudly. At Rainbow English School, I was able to achieve this feat as I was bestowed with the honour of being invested as the school captain for the academic year 2021-22.

When I was felicitated for the position, I was also aware of the responsibilities that awaited me and the glorious name of our school which had to be upheld. Keeping all this in mind, not compromising with my academics at the same time. Being the school captain taught me how to be an all-rounder and made me a better or I would say more mature person.

The journey of being the school captain was a challenging one, but it was equally exciting! I have been very fortunate to be in the guidance of such supportive mentors who guided me at every step. Without their guidance and support I wouldn't have grown this much as a person over the last year. Neither would I have been able to take my school to greater heights.

School captaincy allowed me to gain confidence, experiences and learn new skills. Ultimately, from this experience, I gained new perspective with new set of skills.

In the end I would like to thank everyone who has been so supportive, believing in my abilities and encouraging me to put by best foot forward. I can proudly say that my tenure has been a successful one, for my school has scaled greater heights and will continue for many more years to come.

# Message From School Captain

*"LEADER IS THE ONE  
WHO KNOWS THE  
WAY, GOES THE WAY  
AND SHOWS THE  
WAY"*

It is an honour to be appointed as the school captain of Rainbow English School for the academic year 2021-2022. It is a matter of pride and joy to have been given the unique opportunity to render my services to the School.

Educating children is not the main issue, but educating them in style, instilling into them a positive attitude towards life should be the primary task. For this, School plans extra circular activities, sports, etc. However, there is another aspect that creates a platform of practicality and creativity amongst students and that is the school newsletter!

Through the newsletter, students get a chance not only to express their views but also to bring closeness among the school fraternity, since the newsletter is an amalgamation of thoughts of both the students and their teachers.

I feel proud to say that during my thirteen years in Rainbow, I have been taught to have faith in myself and challenges with the hustle and will power.

It humbles me as the school captain to promise to uphold, maintain and enhance the glory and prestige of the school by unflinching support of the entire school fraternity, unperturbed diligence, and unrestrained determination.

# Message From Head Boy

*“NEVER LET THE  
FEAR OF STRIKING  
OUT STOP YOU  
FROM PLAYING THE  
GAME”*

I am very grateful that the School Management has given me this opportunity that I can share my views, my learnings, a message for all of you as the Head Boy (2021-22) of the school, so that one can take a learning from it which he or she finds interesting or valuable to implement in his or her own academic life. Few of the things which I find astonishing about the student/learning phase that one can make a number of mistakes and have a shed of guidance in the form of teachers, parents which allows us to have failures, learnings, discovering the errors and have a sense of what has to be performed and also, what not. Even if you fail in this stage but you do get the opportunity to try again with more power, more energy, and with a better plan. No other phase of life provides this sense of relief, comfort and BOUNCE BACK MINDSET.

And more importantly this phase provides you the TIME and with the advent of internet, you can explore a number of fields that the whole world is excited about but no one has the information about it. Therefore, invest in something useful which can help you grow both academically and intellectually.

At last, I want to say that whenever you face a setback, never sit back, just take a step back in order to bounce back more hard, more prepared and much stronger than before.

Best wishes, keep smiling  
Harsh Kumar

# Message From Head Girl

*“TO UNSEAL THE  
POTENTIAL IN  
OTHERS, IS TO  
REVEAL THE LEADER  
IN YOU”*

Being a student, I always dreamt to grow up to be a leader and accomplish my urge to contribute for the greater good and to always break boundaries and set examples. But as we know that leadership is not a cakewalk, the challenge of leadership is to be assertive but not imposing, to be humble but not frail, and be thoughtful but not slothful.

Holding on to this revered position of the Head Girl, of Rainbow English School, for the year 2021-22, I feel obliged, having given this opportunity by our Principal and teachers, to be able to uphold the flag with immense pride and give back to my alma mater with best of my capacity.

Our school has recognized every child as a diamond and worked to polish it to shine with excellence. I feel enormously benefitted from the assiduous management of the school that has moulded me and carved in me a tendency of dreaming to reach pinnacles. Thereby, I look forward from the new generation, the upcoming leaders to confront the status quo at all times and teach all, desire more, and unleash yourself in order to explore your individual potential, and with careful forethought. I seek to unfetter the thinking of the upcoming leaders and my schoolmates.

I am aware, that my actions, shall leave behind vivid footprints, and thus I look forward to inspire my schoolmates through my actions and along with the council members, to take the school to new zenith of excellence with the motto of 'Honest Labour Pays'.

I have always believed that leaders are created and not born and thus my message to all the upcoming leaders shall be, With integrity, insight, inclusiveness and a relentless spirit we can unlock the hidden treasure of our talents and abilities because a bird sitting on the tree is never afraid of the branch breaking, as its trust is not on the branch but on its own wings!

Best Wishes

## ATAL TINKERING LAB

"Curiosity, Creativity, Imagination are the real skills of the future."

The Government of India has setup the Atal Innovation Mission (AIM) at NITI Aayog. Realizing the need to create scientific temper and cultivate the spirit of curiosity and innovation among young minds, AIM proposes to support establishment of a network of Atal Tinkering Laboratories (ATL). ATL is a work space where young minds can give shape to their ideas through hands on do-it-yourself mode and learn innovation skills.

The objective of this scheme is to foster curiosity, creativity and imagination in young minds and inculcate skills such as design mind-set, computational thinking, adaptive learning, physical computing etc. Young children will get a chance to work with tools and equipment to understand what, how and why aspects of STEM (Science, Technology, Engineering and Mathematics).

Rainbow English Senior Secondary School Janakpuri organised 'Zonal Slogan Writing Competition' for the students under both junior and senior categories on 24 December, 2021.

50 schools participated from Delhi West Zone school, and about 170 students showed their enthusiasm and illustrated their creativity in writing the slogans on important issues like 'Women Empowerment' and 'War Against Covid.'

The school welcomed Dr. Bhawna Sharma (Sharda Ukil College of Arts) and sculptor Mr. Ashish Tanwar (master in fine arts) who were also the distinguished judges for the event. School Headmistress Ms. Sonia Kashyap greeted the judges with saplings and beautiful handmade Christmas wreath made by the school students to cherish the spirits of Christmas

All the participant schools were warmly welcomed. The school followed and motivated everyone to follow COVID-19 rules strictly to ensure safety of all.

Competition was a great success with everybody's contributions and enthusiastic participation of the students. Judges appreciated the efforts and arrangements made by the school.
